Greene Will Not Be a Justice.

Madison, July 6.—Evidently George G. Greene of Green Bay, is not Governor Upham's favorite candidate for the vacancy on the supreme bench, caused by Justice Orton's death, as some have prophesied. Today the governor named him as one of the commission to carry on the work of making the laws of this state uniform with the laws of other states. Other members of the commission are A. L. Sanborn, of Madison and G. M. Woodard of LaCrosse. Judge Marshall is thought to be the most likely to be named for the bench.

## VIRGINIA TROOPS UNDER ARMS

Miners Making Trouble—Militia May Be Sent Against Them.

Charleston, W. Va., July 6.—Gov. MacCorkle received information yesterday to the effect that the peaceful relations between the striking coal miners in the Norfolk & Western region and the operators had imported men are not likely to continue much longer. Thursday night the strikers drove out about fifty foreigners who had been brought to the mines near Elkhorn to take the strikers' places. The operators have notified the local officials that a determined effort will be made to start several of the mines on Monday, and that aid and protection will be expected.

The outlook is considered serious by the authorities, and a call for soldiers is confidently expected. In many localities the strikers are in desperate straits and starvation is staring them in the face. They have been living for a month on contributions from outside the district, and these are coming very slowly. The governor is informed that the miners are heavily armed and are preparing to raid the mines employing non-union men. The information was of such a character as to cause the governor to place the Second regiment of the National Guard under arms and to arrange transportation by special train on half an hour's notice.

Last night a band of negro miners met the Norfolk & Western train at Eckman and refused to allow any one to leave the cars. The situation is decidedly grave, and it is believed the soldiers will move at once.

At midnight last night Gov. McCorkle was informed from Elkhorn that 200 miners are marching, armed, from mine to mine, driving out the foreigners and creating panic. They are threatening fire, but have burned nothing yet. At 11 o'clock 400 strikers marched to the Crozier works, but they were driven off by the armed guards, no shots being fired. The Second regiment is now ready to move and the trains are waiting for them on all roads over which they will travel.

## A FATHER'S MAD ACT.

Suffocates His Entire Family and Himself—Was Insane.

Chicago, July 6.—Frederick Hellmann, a building contractor, deliberately killed himself, his wife and their four children the night of July 4, by shutting his house up tight and turning on a gas jet. The six bodies were discovered yesterday morning and it was first thought they were victims of an accident, but a letter written by Hellmann to his brother and read at the inquest left no doubt that suicide, long planned, had been committed. The dead:

FRITZ HELLMAN, aged 34 years.

IDA HELLMAN, aged 29.

FRITZ HELLMAN, JR., aged 13.

IDA HELLMAN, aged 11.

WILLIE HELLMAN, aged 8.

HEDWIG HELLMAN, aged 4.

From the positions in which the bodies were found there is reason to believe the three elder children made a desperate struggle to escape from the bedroom in which they were confined, but were prevented by the father. The mother and baby were lying in bed as if in peaceful slumber, but the two boys and the older girl were in strained attitudes and the expression of their faces were those of persons who had struggled hard against death. The father's hand, too, was firmly placed across the mouth of the older boy and there were marks on the throat of the other lad that would believe that the child had been quietly by strangulation. The bed clothes were in great disorder and showed evidence of a struggle. Hellmann is believed to have been insane.

## Family Quarrel Results in Murder.

Terre Haute, Ind., July 6.—James Ryan, a blacksmith, shot his wife here yesterday, and while she was gasping for life, threw her body down stairs. He then shot himself, dying instantly. The couple had quarreled, and she was getting ready to go to her mother in Bloomington, Ill., and he was remonstrating with her when he shot her. She had three daughters, 11, 14, and 19 years. He was 35 years of age and came here from Frankfort, Ind., where his father lives.

## Must List Paid-Up Stock.

Indianapolis, Ind., July 6.—Attorney-General Ketcham says the building and loan associations of the state might as well make up their minds to list for taxation the \$6,000,000 of paid-up stock they have issued. It seems certain that the question will get into the courts soon and that the Supreme Court will be called upon early in the fall to say whether or not associations can be compelled to furnish the names of persons who own paid-up stock, and the amount owned by each.

## Boston Rioters in Custody.

Boston, Mass., July 6.—Harold G. Brown and John Ross are charged by the police with the murder of John W. Wills and the wounding of several others in the East Boston American Protective Association riot. They were committed to jail to await a hearing on Friday next. The aldermen and police disclaim responsibility for the trouble, but the A. P. A.'s seek to throw the blame upon the police guard, who, they assert, left the rear of the procession unprotected.

## Ida Johnson Murder Trial.

Galesburg, Ill., July 6.—In the Ida Johnson murder trial yesterday the prosecution showed by rebuttal evidence that Mrs. Johnson, in conversation before the shooting, had said she would shoot his "royal ribs," and that she was not cruelly treated by her husband. ## TEACHERS AT DENVER.

National Council of Education Convenes in That City Yesterday.

Denver, Col., July 6.—What will probably be the greatest convention of educators ever held in the United States, including instructors of every grade from the kindergarten to the university, was opened yesterday at the capitol, which was given up for the time being to the National Council of Education, one of the twelve departments of the National Educational Association. The general meeting of the latter organization will not be held until next week, by which time it is estimated by committee on arrangements, from the responses already in hand, that there will be over 25,000 visitors in Denver. Nine committees, representing the business and commercial interests of the city, have been at work for the last two months on the arrangements for the convenience and entertainment of the delegates.

The proceedings were opened by President C. C. Rounds, of the national council, who briefly reviewed the work of the past year. B. A. Hinsdale, of Ann Arbor, presented the report of the committee on pedagogics, and at the afternoon meeting the report of the committee on psychological inquiry was discussed.

## Census Nearly Completed.

Washington, July 6.—The eleventh census is practically completed. Superintendent White says that only one table and the deductions therefrom remain uncompleted. The printing is well under way and will be completed by the close of the present year. If this promise is made good the eleventh census will beat the record of its predecessor by two and a half years. The report will contain twenty-five volumes, and Mr. Wright expresses the opinion that it will be the most complete of its kind ever published by the government. The total cost will be about \$11,500,000, or about double the cost of the census of 1880. Mr. Wright advocates a permanent census bureau, and expresses the opinion that before next census is undertaken congress will provide for the service on a permanent basis. He thinks the expense would be no greater than under the present method, and that the service would be more satisfactory.

## Speaker Meyer's Funeral.

Freeport, Ill., July 6.—The funeral of John Meyer, speaker of the Illinois house of representatives, was held at 2 o'clock yesterday at the residence of his father-in-law, C. O. Collman, and was attended by many prominent men from all parts of the state. The ceremonies were conducted by the Rev. E. P. Hill, D. D., pastor of the First Presbyterian church of Freeport, and the Rev. Dr. John Mueller of the Presbyterian college at German Valley. The church choir sang several hymns, after which Dr. Hill offered a prayer and read a portion of scripture. Dr. Mueller delivered a short address. ## Kills His Wife and Himself.

Springfield, Ill., July 6.—George Lawson, a hack driver, celebrated the Fourth by getting ingloriously drunk. He protracted his debauch into the morning, and when he went home he was ripe for any crime. He resented his wife's criticisms by shooting her through the breast and then turned his weapon upon himself, inflicting a wound in the region of the heart that will cause his death. Mrs. Lawson is not expected to recover, as the bullet, a .38-caliber missile, passed completely through her body.

He had made three successful ascensions during the day, but the fourth time, when about 1,200 feet high, the parachute failed to open and he fell to the ground. His body was mashed to a pulp. While inflating a balloon for an ascension the guy rope of one of the heavy poles which held the balloon became loose and the pole fell, hitting Marion George on the head, killing him instantly.

## SHOT BY AN UNKNOWN.

Policeman at New Ulm, Minneapolis, Killed on His Beat.

Minneapolis, Minn., July 6.—Albert Winkelmann, the night policeman at New Ulm, Minn., has died from the wound he received Thursday at the hands of some unknown person. Winkelmann was shot while walking his beat in the outskirts of the town. It is said he was shot by a tramp whom he had ordered out of town, but the people of New Ulm do not believe this story, although searching for the tramp. It is understood Winkelmann had a secret enemy living in New Ulm, and as the murderer did not commit robbery this enemy is charged with the murder. A large reward has been offered.

## American Bank Robber Arrested.

New York, July 6.—An American bank robber, known as Horace Hovan, alias "Little Horace," is under arrest in Germany. He was locked up about a month ago at Frankfort-on-the-Main for picking pockets in the Imperial Bank. Hovan has been associated with all the smart bank sneaks in this country. In 1870 big Ed Rice and Hovan stole \$20,000 from a vault in a bank at Halifax, N. S. He was arrested March 31, 1879, at Charleston, S. C., for the larceny of \$20,000 in bonds from a safe in the First National Bank in that city.

## COSTLY FIRE IN OSWEGO TODAY

## BLOODY RIOTS OF THE FOURTH

Exciting Time at St. Indiana Picnic—Religious Prejudices and Whisky.

English, Ind., July 6.—A terrible riot, in which 1,000 men and women participated, took place Thursday at a picnic at Siberia, Perry county. Three men were killed and fifty-four persons were wounded, many of whom are women. The dead are:

WILLIAM GEISE.

FRANK HART.

FRED ELMER.

The occasion was a German Catholic picnic, and an interruption by anti-Catholics, loaded with whisky, was the cause of the trouble. It is thought that the riot would not have taken place but for the use of liquor, although prejudice amounting to almost bigotry existed on both sides.

Dr. Lomax, a surgeon, with two assistants, was kept busy from 4 o'clock in the afternoon until noon next day dressing the wounds of the injured. Samuel Wilson, a leader of the anti-Catholic element, will die from the effects of a fractured skull, caused by a bottle wielded by a woman whose husband Wilson had cut with a knife. The town is but a hamlet of a half dozen houses, and a Catholic church is in an isolated portion of the county. The dangerously wounded are all in the church. Twenty are expected to die, while others are in a critical condition.

## FIGHT AMONG THEMSELVES.

Lewistown, Ill., Troughs Celebrate the Fourth in Their Own Way.

Lewistown, Ill., July 6.—The Fourth of July celebration at Bernadotte, a small place on Spoon River, twelve miles from here, ended in a desperate battle of a gang of toughs. The injured:

Coakley, John, shot and seriously wounded.

Kimball, Myron, badly wounded by a stray bullet.

Lease, Wilbur, leader of the gang, had his throat cut and will die.

Myers, Lester, badly injured.

All who took part in the fight are residents of that vicinity and hard characters, several of them having served terms in the penitentiary. The fight began about a woman. Knives, revolvers, stones, and all kinds of deadly weapons were brought into use. Myron Kimball is an old citizen of the place and was watching the battle when hit by the stray bullet.

A half dozen more of those who took part in the battle were carried off the ground suffering from wounds caused by bullets, knives and rocks. The good people of the community regret that this war of extermination did not extend further and result in the death of the entire band of ruffians who have terrorized the village for years.

## Italian Laborers Riot.

Jeffersonville, Ind., July 6.—The Italian laborers at Rockport, Ind., early yesterday morning piled brush under the bridges and trestles to burn them. Father Brundt of St. Henry partially quelled them by promising them transportation to Chicago, and the citizens have petitioned the County Commissioners to make an allowance of \$600, the amount necessary to transport them. The Sheriff and citizen deputies are still on guard ready to fire at any minute. Should the county refuse them transportation serious trouble is sure to follow. The railroad contractors who owe the money have fled. It looks as if the Chicago, Indianapolis and Rockport road will not be completed.

## Killed by an Officer.

Burlington, Ia., July 6.—Two local toughs while resisting arrest fired upon Chief of Police Low from behind a tree in the residence portion of the city last evening. After Low had shot one through the shoulder they both grappled with him and were beating him over the head with their empty guns when Officer Shirluff came running up and shot one named Connelly through the back, inflicting a fatal wound. The other escaped, but a posse is on his trail. He may be roughly handled, as there is great excitement here.

## USES DYNAMITE.

Attempt to Blow Up a House and Church in Ohio.

Columbus, O., July 6.—An attempt was made to blow up the residence of Jerry P. Bliss, Director of Public Improvements, and a small frame church adjoining, at 11:30 o'clock last night. A bomb was thrown on the porch of the residence, and another into the church. Luckily the bombs did not do the work expected, as the church was only partly wrecked and the residence slightly damaged, one pile of bricks being blown out of one corner of the latter. The bomb-thrower evidently not only intended to destroy the house but the lives of the occupants as well.

## Americans Arrested in Germany.

Pittsburg, Pa., July 6.—Twenty-two years ago Alois Winter, now treasurer of the M. Winter Brewing Company, and Jacob Burg a wealthy saloon-keeper, of this city, left Germany to make their fortunes in America. They came to Pittsburg and prospered. While in Berlin they were arrested, according to a cablegram received by a relative of Mr. Winter, and charged with being deserters from the German army. The United States authorities will be asked to look into the matter. Both men are naturalized.

A demand that the parity of legal tender money be maintained. A demand that it be unlawful for Congress to stipulate any one kind of money in payment of debts. A demand for an amendment to the United States constitution to provide for an income tax. A demand for retrenchment in every part of the government.

## BIG IRRIGATION SCHEMES.

Chicago and New York Capital to Be Invested in California Lands.

San Francisco, July 6.—Two big eastern financial houses have decided upon a step that means a good deal for California. Color & Co., bankers, of New York, and the North American Trust and Loan company, of Chicago, will take the bonds of the Poso and Turlock irrigation districts—until now almost worthless—and will supply funds in such quantities that the work on both systems can be pushed to completion. L. H. Hote, president of the Chicago company, who carried on the negotiations for both concerns, has arranged to take enough of the bonds of Poso district to complete it. It is said that all of the canals, ditches, and dams will be finished within ninety days. Mr. Hote has also agreed to take nearly all of the remaining bonds of the Turlock district. Work on the Turlock system will begin July 15, and it is estimated that it will be finished by next April. This means the great areas of rich soil, whose only need is water to make them as fertile as any in the world, will be turned into good fields and orchards. The Poso irrigation district was organized under the Wright law in September, 1888. It embraces 40,000 acres and is bonded for \$500,000.

## Protest Against Elevator Combine.

Buffalo, N. Y., July 6.—At a meeting of canal forwarders and boat owners held to protest against charges by elevators and the attached monopolization of freight by railroads, resolutions were passed declaring the Buffalo grain elevator has forced nearly all of the canal boatmen to tie up their boats, while the railroads carry out of Buffalo daily from 400,000 to 800,000 bushels of grain and calling upon Governor Morton and the Attorney General to compel the elevator combine to elevate grain at the rate fixed by statute.

## Heavy Fire in New Mexico.

Silver City, N. M., July 6.—News has reached here of the burning of the Santa Rita copper and iron mill, eighteen miles from Silver City. The Only Remedy in the World

Habit in 4 to 10 Days is

## Narcoti-Cure

It Cures while You Continue the  
Use of Tobacco.

The greatest discovery of the age!

A certain, pleasant, permanent cure.

A lifetime's suffering ended for \$5.

Why smoke and spit your life away? Why suffer from dyspepsia, heartburn and drains on your vital forces?

Stop using tobacco, but stop the right way. Drive the nicotine from your system by use of this wonderful remedy.

Narcoti cure is warranted to remove all desire for tobacco in every form, including Cigar, Cigarette and Pipe smoking. Chewing and Snuff Taking.

Use all the tobacco you want while under treatment, and in from four to ten days your "hankering" and "craving" will disappear—the weed won't taste good.

Then throw away tobacco forever.

Narcoti-Cure is entirely vegetable and free from injurious ingredients. It never fails to give tone and new vigor to the weakest constitution.

Remember Narcoti-Cure doesn't deprive you of tobacco while effecting a cure; doesn't ask you to buy several bottles to be entitled to a guarantee; doesn't require a month's treatment; and finally, doesn't enable you to stop tobacco only to find yourself a slave to the habit of tablet chewing.

With Narcoti-Cure, when you are through with tobacco you are through with the remedy. One bottle cures.

Send for book of prominent testimonials like the following:

HUNTINGTON, Mass. Mar. 18, 1895.

The Narcoti Chemical Co., Springfield, Mass.

Gentlemen—I have used tobacco for over twenty-five years, chewing and smoking every day from 7 a. m. to 9 p. m. stopping only for meals. On Monday, February 4, I called at your office in Springfield, and bought a bottle of the Cure which I used as directed and on the tenth day the desire for tobacco had left me and has not returned. I did not lose a meal while taking the "Cure." My appetite has improved and I consider Narcoti-Cure a grand thing.

Very respectfully,

CHAS. I. LINCOLN.

Mr. Frank H. Morton, of Chicopee Falls, Mass. late Inspector of Public Buildings for Massachusetts, says: I used tobacco for twenty-five years, and was a confirmed smoker. In just eight days' treatment with Narcoti-Cure I was through with tobacco, in fact the desire vanished like a dream.

Very Respectfully,

FRANK H. MORTON.

## THIS DAY IN HISTORY

1802—General Daniel Morgan, American Revolutionary hero, died at Winchester, Va. Morgan was a gallant border soldier in the numerous Indian wars of the colony of Virginia. His first service in the Revolution was in Arnold's march to Quebec, where he led a band of picked riflemen, DANIEL MORGAN, hardy Virginia mountaineers. In the great assault when Montgomery fell and Arnold was disabled Morgan fought his way into the town. His command was always made up of the same elements as his original company and at Saratoga and Cowpens played a brilliant part.

1835—John Marshall, noted chief justice of the United States, died in Philadelphia, born 1755.

1886—Paul H. Hayne, southern poet, died near Augusta, Ga.; born 1830.

1892—Battle at the Carnegie works, Pittsburgh, between Pinkerton's men and locked out workmen.

## "SIXTEEN TO ONE" EXPLAINED.

The panacea of "sixteen to one" has been understood in many places very differently by the people who have listened to the sirens luring them to the rocks of free silver coinage; but nowhere has it received so original and refreshing interpretation as in the heart of Alabama, the balliwick of the Hon. Reuben Kolb. "We want free coinage at sixteen to one," cried a gentleman with chin whiskers and one suspender to a sound money advocate in the recent campaign; "and we want it now!" "Well, my friend," replied the man of some sagacity, "what do you mean by free coinage at 'sixteen to one'?" How would that help you?" "How would that help me?" repeated the disciple of the Hon. Reuben; "why it would help me a heap sight. I've got a wife and seven children; and if we can get free silver at 'sixteen to one,' that'll bring me sixteen dollars for every member of the family. Seven and one is eight and one is nine. Nine times sixteen is 144. I'll be in \$144 every year. That's how it'll help me. See?"

And still the Hon. Reuben is in New York trying to raise funds to help along the cause; and the campaign of education goes steadily on.

## GOOD EXPORT TRADE PROSPECTS.

If the estimates of Statistician Thoman and others should prove to be nearly correct it would appear that, in spite of the acknowledged deficiency in the winter wheat output, this country would be in condition the coming year to contribute about the annual average quantity of wheat and flour toward the requirements of importing countries. Should the corn crop turn out to be anything like as large as it now promises, the increase in exports of that cereal and of its meat and lard products would be greatly exceed those of any recent year. Cotton, too, promises a production in excess of the pessimistic prophecies of the early planting season.

At the highest level of values now current the exports of agricultural staples will yield a larger money return than did those of last year. It is not improbable, therefore, that the trade revival, which has already swollen and is likely to still further expand the domestic exchanges of the country, will be substantially evidenced in its foreign business also.

It would be a good thing for democrats who are drawing the deadly parallel on Waterson's silver speech, if the same parallel fitted them. It simply means that the Kentucky editor grows wiser as he grows older. The important consideration for him is that he is on the right side now.

The weather bureau forgot to inform the public of the hot time its chief was having with the secretary of agriculture. The head of the weather service department must have come in conflict with some of Secretary Morton's honest money manuscript.

A year ago this section of the country was tied up by railroad strikes. At the present time, however, there is a remarkable absence of labor contests of any cost. This, too, is only one of the changes for the better which has taken place. No cloud can be seen anywhere on the business sky.

So many presidential possibilities are now in the hands of their friends that their friends must soon begin to have trouble on their hands.

Strange that the train of bankrupt railroads administered by receivers is still subject to raids by highwaymen and robbers.

## A Suggestion From the Orient.

"Monsoon." That word suggests the spicy odor of the Orient. It makes you think of waving date palms and the beauties of the tropical countries. When it stands for tea, however, it is most expressive. Monsoon tea is recognized by the leading chefs of the country as the perfection of teas. The leading hotels and restaurants use it because it is the best and goes the farthest. Its flavor is delicate and it has stood the most rigid test both of the chemists tube and the family table. Ask your grocer for it or try a cup of Mrs. Abbey's brewing.

Remember the round trip to Waukesha, via C. & N. W. Ry., Thursday, July 11, is only \$1.50. Leave Janesville 9:10 a. m. Positively no crowded cars.

Our hearts are with them, those traveling men and their picnic and we should like much to be with them but it is impossible. Saturday's trade is always large and since our 50 cents on the dollar shoe sale has been in progress we've kept on the jump all day. There is no argument necessary, people can see the good side of things. Becker & Woodruff.

## It Grows on You.

It may seem rather exaggerated, but a fact, nevertheless, that after drinking Monsoon Tea for a short time, you become so attached to its peculiar flavor that you will use no other brand. The longer you drink it the better you like it. Mrs. M. Abby is serving it today at Grubb Bros. to anyone wishing it, free.

## THE DISCOVERY OF AMERICA

by Columbus brought enlightenment to the world. New fields of enlightenment in this century are in the lines of science. The triumph of Conservative Surgery is well illustrated by the fact that RUPTURE, Hernia, or Brach, is now radically cured without the knife and without pain. Clumsy, chafing trusses never cure but often induce inflammation, strangulation and death. TUMORS, Ovarian, Fibroid (Uterine) and many others, are now removed without the perils of cutting operations. PILE TUMORS, however large, Fistula lower bowel, are permanently cured without pain or resort to the knife. STONE in the Bladder, no matter how large, is crushed, pulverized, washed out and perfectly removed without cutting. STRICTURE of Urinary Passage is also removed without cutting in hundreds of cases. ## DEAD MAN IS FOUND BESIDE THE RIVER

EDGERTON EXCITED BY ANOTHER MYSTERIOUS CASE.

Body Is in the Final Stages of Decomposition and Beside It Lies a Revolver With Two Empty Chambers—Whether It Was Murder or Suicide Is Not Known—City News

In the last stages of decomposition, the body of a well-dressed young man was found on the bank of the river, about half way between Indian Ford and Newville this morning. Beside him lay a revolver with two chambers empty. A coroner's jury from Edgerton is now trying to solve the mystery, and decide whether it was a case of murder or suicide. The body was so badly decomposed that it was difficult to tell much about it, but it was the corpse of a young man who wore a good suit of clothes and fine linen. The find created great excitement in Edgerton. The coroner had not returned a verdict at 4 o'clock.

Small Shoe-Black's Franchise Proves To Have Burdensome Features.

A small shoe-black got the "shining concession" in an east side saloon this week by promising to shine the shoes of the help free. The first day things went all right, but the second day thirty-five men were sent over to his chair as "help," and the one man who expected to pay went out in disgust because he had to wait too long. The boy bought a new box of blacking that night and sought a new location.

Can't Go Wrong If You Follow Them.

When you hitch your chariot to the judgment of traveling man, you cannot go wrong. This is especially true of any food product. Traveling men have to live at all kinds of hotels and partake of all grades of fare. When they run across something good they are quick to realize and recognize. Mrs. Abby served coffee brewed from the famous "Diamond brand" at the traveling men's picnic today and they, as experts, pronounced it superior to all others. Their judgment, it may be said incidentally, was the same of the biscuit made with Perfection baking powder and flavoring extracts.

## WOODS FULL OF FUN AT THE J. T. M. PICNIC

DRUMMERS AND FRIENDS AT CRYSTAL SPRINGS.

John M. Whitehead, the Orator of the Day—George Wiggins of Evansville Wins the Bicycle Race, Will W. Watt Being Second and Will R. Pfennig Third.

Janesville commercial travelers enjoyed their annual outing at Crystal Springs park today, and it was no half-and-half celebration either. When the travelers start out to do anything, they go sled length, and today's sled was an extra long one. The Crystal Springs grounds were crowded and Mr. Whitehead had an

John M. Whitehead

enthusiastic audience. In the afternoon there were games, racing and dancing.

The road race was the chief feature of the day's amusements and a big crowd saw it. Charles Tallman finished first in 13:55 but was disqualified as he had not entered properly. The winners were:

First—Gold Medal—George Wiggins of Evansville Time 15:15.

Second—Silver Medal—Will Watt, Janesville Time 15:30.

Third—W. M. Pfennig.

The time prize, which probably fell to W. M. Pfennig was not awarded, but will be left to the Arrow Cycling Club for settlement. The other riders were not kept track of as only three could win prizes.

The minstrel show which was to have been a feature of the afternoon, was abandoned, several of the artists being unable to attend.

An accident happened at the springs this afternoon which came near disabling W. J. Kyle. He was whirling in a little merry-go-round and toppled over from dizziness, striking the ground with such force as to cut a gash over his right eye and give him a general shaking up. Dr. Joe Whitling dressed the wound. W. L. Bench, who was also on the swing, escaped with a general shaking up. Both men represent Chicago wholesale houses.

The parade at 10 o'clock opened the ball, and unlike most parades, it started on time. E. C. Burdick and James H. Burns were on the advance guard, and they rode on prancing steeds. Then came Major J. H. Callen with a half acre straw hat, a whistle, and a drum major's baton. When he blew the members of the band blew, and they made fine music. There were twenty-two members in the band and each wore a linen duster. Director Al Knoff smiled complacently when he took his silver cornet from his lips, because he knew, as well as everybody else, that his "colts" were doing well. Then came the Boys' Brigade of the Presbyterian church, in command of Captain C. H. Hanson, and they, too, made a fine appearance with their new uniforms and glittering guns. There were twenty-four of them in line, and they kept step like veterans. Then came a carriage in which Mayor Baines, H. F. Bliss, O. D. Lincoln and John M. Whitehead rode. Mayor Baines was in his official capacity as chief executive of the city. Mr. Bliss was "spelling off" President Marzluff, who had gone down to Manhattan beach to see a balloon ascension, while John M. Whitehead was the orator of the day. A pair of crutches spoke eloquently of why O. D. Lincoln was in the carriage, and his rheumatism was coupled with his official dignity as an officer of the association.

Then came Mr. Big Injun, chief of the Kickapoos and color bearer of the association. He is the brave who is the guest of Messrs. Stearns & Baker, the druggists, and he wore all his finery. Of the traveling men, there were eighty—count 'em—eighty. They marched two abreast, and had linen dusters and canes. They marched down Milwaukee street to Main and up Main to the Columbia's dock, where they embarked for Crystal Springs.

NO BEER ON THE ROCK TOMORROW.

Officers Will Sniff The Breezes For the Smell Of Hops.

Fewer beer kegs will be tapped along the banks of Rock river tomorrow than formerly. The police, it is understood, will patrol the river up to the city limits, and from there the town of Janesville officers will be on guard. Half drunken rowdies along the river banks have been a great nuisance and strong measures are needed.

BIG RACES, THESE OF OURS.  
Record Breakers to Be Here—Kate Phallamont Going Very Fast.

Kate Phallamont is likely to turn out a bright star in the trotting world. At Minneapolis she made Maggie Sherman step a second mile in 2:13½ to beat her. Frank Colby her driver says he will mark her in 2:10 or 2:12. She will be here at the great meeting in July and goes from here to Detroit, Cleveland and Buffalo.

The July meeting will outclass any meeting ever held in Wisconsin. Altogether over one hundred entries have been received, the horses are all of the highest class. In the 2:10 pace fourteen stars have entered and the same number are listed in the 2:12 trot.

Joe Patchen, the only horse that has beaten Robert J's 3:01½ will be here and a race may be arranged for Patchen and Stratlan, 3:06, during the meeting.

Independence is no longer in it. It is now the horsey town of Janesville, Wisconsin.

GINGER ALE AT THE FIVE POINTS  
Dr. P. Biglow Claims He Found Temperance Drinks in a Surprising Quarter.

Dr. P. L. Biglow was brought into court again this morning, this time charged with being a common drunkard. He indignantly entered a plea of not guilty. He insisted that he drank no liquor yesterday; that he took a walk up to the "five points," when he met a friend. The two stepped into Canary's and took a drink of ginger ale.

"Hold on doctor!" said Chief Achson. "Canary doesn't keep ginger ale in his place, and a man would be punched if he ever called for it around the five points."

This broke up the doctor's explanation, and the case was adjourned until Monday.

MOLE ADDITION LOOKING WELL.  
That Part Of The City Now Has The Latest Improvement.

You mustn't think the Mole & Sadler addition is dead. Property has not been selling well in and about this addition for some time, but of late a number of houses in different parts of the addition have sprung up, until now it is a growing town by itself with electric cars the entire length of the avenue and the completion of the water works system to the cemetery there is little reason why its owners should not realize on their investments.

CUT OFF BRIDGES ARE SAFE.  
Northwestern Repair Crew Have Finished Their Work Near This City.

The numerous bridges along the cut off, have been put in first class condition and those running through the Mole addition have all been finished. The work has been done by the bridge building crew of the Northwestern road. They carry their own pile-driver and of late trains have had orders to run slow over the entire cut off.

LIGHTS IN THE MOLE ADDITION.  
More Electricity Demanded By The People On Madison Avenue.

People in the Mole addition are wondering if they will be benefited by an extension of the electric light system to their part of the city. They insist that six new lights distributed among the different streets and avenues of the addition would be none too many.

## BOTTLE OF POWDER TORE A BOY'S HAND

BERT THORNTON DISABLED BY AN EXPLOSION.

Arthur Lawes' Face Blackened and Burned—The Boys Were Laying A Train And It Exploded Too Soon, the Contents of Their Flask Being Ignited.

A powder bottle burst in little Bert Thornton's hand last evening. It disabled him and wounded Arthur Lowe about the face.

Twenty pieces of glass were taken from the Thornton boy's hand.

The two boys bought a bottle of powder and spread the powder on a board back of M. Thornton's home 159 South High street. Bert had made a line about two yards long, and while he was intently at work his playmate lit the train. In an instant the fire had flashed along to the bottle and a sharp explosion was heard.

Flying glass went in all directions. Blood gushed from young Thornton's hand and the thumb was seen to be near blown off, while the Lowe boy's face was blackened and burned.

No one was at home when the accident occurred, and the boys ran bleeding to the home of R. A. Lowe. Dr. Sutherland was called, and twenty pieces of glass were taken from Bert Thornton's hand. It required several stitches to sew up the wounds. The Lowe boy was taken to the doctor's office this morning and the powder grains picked from his face.

M. G. JEFFRIS GETS HIS STATUARY  
Venus, Apollo and Hebe Come all the Way From Florence to Janesville

Three beautiful Florentine marbles now grace the parlors of Mr. and Mrs. M. G. Jeffris. They were bought while Mr. and Mrs. Jeffris were in Italy last April, but European shipping systems are not organized for speed, and the statuary has only just come to hand.

The largest of the three pieces is a copy of a Hebe, a highly valued treasure in one of the Florentine galleries. The grace of the original has been preserved in striking degree. The copy with its base stands a trifle over six feet in height.

A work that will be a source of even greater interest to many art lovers is a small but exquisite copy of Canova's Borghese Venus, in which the charms of Pauline Bonaparte, Napoleon's sister, are preserved. Mr. and Mrs. Jeffris so admired this work when they visited the Borghese Villa in Rome that a decision to bring home a copy of it took but little deliberation.

The third marble is a bust copy of the Apollo Belvedere. Like the others, this is of reduced proportions.

All three of the pieces came through in excellent condition. The weight of this shipment was 1300 pounds and Mr. Jeffris found that in the two months it had been on the way a freight bill of \$60 had accumulated.

Hames—I can't. My private secretary says he doesn't know anything about the subject.—Chicago Record.

**A Hopeful Outlook.**  
"Well, my dear madam, and how are you to-day?"  
"O, doctor, I have terrible pains all over my whole body, and it seems impossible to breathe. Of course I can't sleep at all, and I haven't a particle of appetite."  
"But otherwise you feel all right, don't you?"—Texas Sittings.

**His Feelings.**  
Traverse—Did you go down to my tailor's and tell him I would settle that little matter?  
Office Boy—Yes, sir.  
Traverse—And did he seem convinced?  
Office Boy—He did. He said he was convinced that you wouldn't.—N. Y. Herald.

Tommy (studying his lesson)—I say, pa, where does the Merrimac rise and into what sea does it empty?  
Pa—I don't know, my son.  
Tommy—You don't know, eh? And to-morrow the teacher will lick me on account of your ignorance.—City and Country.

**No Official Announcement.**  
"I am told that Smithers is quite cured of his illness."  
"I don't believe it," replied the blunt citizen.  
"Why not?"  
"I haven't seen his picture in any patent medicine advertisement."—Washington Star.

## YOUNG MEN IN THE SENATE.

More Numerous Now than in the Days When Zach Chandler Was a Senator.

At the time Zach Chandler was first a member of the senate he was one of the youngest members of that body. Besides having a youthful appearance, all the other men seemed quite old to him. On the last day of the first term of Senator Mitchell, of Oregon, Chandler and he sat in the barber shop and chatted about events of the session, and finally Chandler began talking about his earlier career.

"When I went to Detroit," he said, "there were not more than fifty houses in the place. Now it has become one of the leading cities in the West. Michigan was a territory, and we had some pretty hard times there, but I stuck to it, and have been rather successful. Way," he added, rather proudly, "I was elected to the senate when I was forty-four years old."

"That's nothing," answered Senator Mitchell, laconically.

"Nothing?" exclaimed Chandler. "Well, I consider it a great deal to have been elected to the United States senate at forty-four."

"Well," replied Mitchell, quietly, "I have served six years in the senate and am not forty-four yet."

"I give it up," responded Chandler, "you have the best of me. The further West we go the more push we have."

Senator Mitchell is still a young looking man, yet there is only one man in the senate who was a Senator when he was first sworn in who has served continuously. That is Senator Morrill, of Vermont. Sherman, of Ohio, and Stewart, of Nevada, were members of the senate at the time Senator Mitchell was elected, but both have been out. Senator Sherman as Secretary of the Treasury for four years, and Senator Stewart six years, while another man represented Nevada. Senator Mitchell's first term began in 1873. After serving six years he was defeated, a Democratic legislature having been chosen. Six years later he was again elected, and has since been re-elected.

## Puff-Balls Good to Eat.

Probably you have all noticed the little white puff-balls in spring, and "shot-off" the same in autumn, when they are dry and full of dark powder. This is one of our choicest eatable mushrooms. One admiral says he cut a slice from a giant puff-ball, which grew near his home, every day for a week, and had so many fresh fritters; whereas, if he had cut it all down the first day, it would not have made nearly so many delicious meals. One giant puff-ball, when young and creamy, if well cooked, will satisfy the appetites of twelve people. In olden times slices of this mushroom were used to bind up cuts, and were said to insure their speedy healing. In the days of flint and steel, before matches were invented, the powder of the dried puff-ball was often used to catch and hold the sparks. Another strange use to which it was put was to burn it before a beehive. The fumes made the bees drowsy, and the honey could be removed with out difficulty.

## Obstructions on the Highways

Are sometimes allowed by the authorities to remain too long, but when that important outlet is the refuse and debris of the system - the bowels - become obstructed, Hostetter's Stomach Bitters promptly "raises the blockade." This it does, too, without creating any abdominal disturbance in the way of griping, an unpleasantness always produced by a drastic purgative. No permanent, decisive relief from constipation can be obtained through the agency of a violent cathartic. Mandrak, blue pills, salts and senna and calomel, while they evacuate the intestines weaken and partly unfit it for future usefulness. Hostetter's Stomach Bitters, on the contrary, invigorates the whole abdominal region and promotes a regular secretion and flow of bile. Use this time honored remedy also in malaria, dyspepsia, rheumatism, nervousness, in cases of debility, and for kidney trouble. It cures both appetite and sleep.

There is great danger in neglecting cholera, colic and similar complaints. An absolutely prompt and safe cure is found in DeWitt's Colic and Cholera Cure. C. D. Stevens.

## Happy by Comparison.

"Hello, McGinnis, you look blue. What is the matter?"

"Matter enough. Boil on the back of my neck."

"By George, old fellow, I sympathize with you!"

"But you are looking remarkably cheerful yourself, Whackster. Anything wrong with you?"

"My wife is cleaning house."

(Fervently) "Thank heaven for my boil."—Tammany Times.

## An Imputation.

"Yes," said the dealer, "domestic tobaccos are much cheaper now than they used to be."

"Well," said the customer, who had just bought a box of cigars, "it seems to me, then, that you ought to quote a much lower rate on these imported cigars."—Chicago Record.

## Candy for Children.

The Popular Health Magazine says the desire in a child for candy and sweets is a natural one, and should not be stifled. Good candy and sweets in moderation, if that point can be found, not only do no harm, but are actually beneficial. Too much sweet upsets the stomach and spoils the appetite, but candy in moderation, if it is not taken before a meal, is a food which children crave naturally.
